

## Welcome to Went North

We are an adult facility geared for horse trail riders that want to relax after their ride in a comfortable cabin setting with all the amenities of home. There are two cabins available which can accommodate 6 adults in each. The individual paddock areas with shelter options available depending on weather conditions eliminate any worry about your horse.

The cabins have fully furnished kitchens and BBQ grills available. There is one bathroom with shower for guests in each cabin. The living areas are complete with television, DVD, and stereo. We have plenty of books to read, games to play, or the option of a campfire after your ride.

There are several restaurants within 15 miles driving distance.

Huntersville State Forest has over 20 miles of designated horse trails. The Shell and Crow Wing Rivers flow through the state forest adding to its beauty. Sandy soils offer excellent footing for horses in all types of weather.
